### Summary

---

**Front-End Developer** with hands-on experience building responsive web applications using **Angular, TypeScript, HTML, and CSS**. Completed front-end internships and delivered production-ready projects integrating **RESTful APIs** and **Figma-based designs**. Passionate about **UI/UX**, performance optimization, and progressing toward **full-stack development with .NET**.

### Education

---

**Bachelor's Degree in Business Information Systems,** 2021 – 2025  
*New Cairo Higher Institute for Computer & Information Systems*

### Technical Skills

---

**Front-End:** Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, Tailwind CSS, Bootstrap, Angular Material

**State & Tools:** NgRx, RxJS, FormBuilder, RESTful APIs

**Dev Tools:** Git, GitHub, VS Code, Figma, Chrome DevTools

### Projects

---

#### **Money Transfer App, Angular**

- Built a secure money-transfer web application with user authentication and authorization using Angular and TypeScript.
- Integrated RESTful APIs for real-time transactions and converted Figma designs into responsive, accessible UI components.

#### **Fresh Cart, Angular E-commerce**

- Developed full-featured e-commerce front-end with authentication, cart/wishlist, and checkout flow using Angular 19 and Angular Material.
- Implemented state management (NgRx), form validation, and API integration for dynamic product data.

#### **Soical App, Angular**

- Implemented user profiles, posts, comments, and real-time notifications with a responsive UI using Tailwind CSS and Angular.

#### **NoteApp, Angular**

- Developed a modern note-taking web application with real-time features for adding, editing, deleting, and organizing notes.
- Utilized RxJS for reactive state management and SweetAlert2 for interactive user alerts.
- Designed a clean, responsive UI using Angular Material and Bootstrap 5 components.
- Ensured code scalability and performance by following Angular best practices.

## Professional Experience

---

### Front-End Intern (Angular), *WebMasters*

04/2025 – 07/2025

- Developed multiple Angular projects: e-commerce platform, CRUD apps, and admin dashboard.
- Built reusable TypeScript components and integrated front-end with RESTful APIs.
- Participated in Agile workshops and collaborated in cross-functional teams to deliver features.

### Front-end Intern (Angular), *Banque Misr*

07/2024 – 08/2024

- Designed and developed a secure money transfer application using Angular and TypeScript.
- Integrated dynamic front-end components with RESTful APIs for real-time data flow.
- Translated Figma designs into responsive, accessible UI with clean, maintainable code.
- Collaborated with back-end developers to ensure full functionality and performance.
- Awarded 1st place for best front-end project among interns.

### Freelancing Trainee, *ITIDA Gigs*

04/2025 – 06/2025

- Completed 3-month intensive freelancing training: client communication, proposals, pricing, and live tasks.
- Gained experience in client-facing workflows and project delivery on freelance platforms.

## Awards & Achievements

---

- 1st Place Winner – Banque Misr Internship (Best Front-End Project, 2024)
- Top Achiever – ITIDA Gigs Freelancing Program (2025)

## Soft Skills

---

- Strong Problem-Solving & Analytical Thinking
- Team Collaboration & Communication
- Fast Learner & Adaptable
